Aluminum-plastic cabinet

Cabinet is an essential accessory for outdoor spa. It is designed to protect the spa's edges, prevent water from seeping into the surrounding area, and serve as a decoration. It uses a tough aluminum-plastic composite panel with insulation foam which seamlessly covers the entire spa sidewalls. Added metal lines with highlights shows the sense of fashion. This skirting board is durable, corrosion-resistant, and can withstand extreme weather conditions.

In addition to its functional benefits, the upgraded version aluminum-plastic cabinet with 4000K LED strip adds a stylish touch to the outdoor spa. Its sleek and modern design complements the overall look of the spa and creates a neat and bright finish.

EFFICIENT DESIGN

Ocean Future spa with smooth line design, features ergonomically designed seating, and comes with moderate nozzle force, providing your body with a perfect massage experience. The gorgeous lighting allowing you to relax and enjoy a romantic atmosphere. Whether it's decompression and relaxation, or enjoying intimate moments with loved ones, Ocean Future spa is an ideal choice for you.
