ABOUT ANYE

Foshan ANYE Medical Apparatus Technology Co., Ltd is specialized in manufacturing and sales of high-end dental unit. Our group is established in 1998, it has passed ISO13485 and CE. The factory covers an area of more than 10,000 square meters.

To keep improving in production technology and product quality is ANYE's goal. ANYE completes everything from raw materials to finished dental units independently. There is a large number of advanced digital and automated equipment processing (E.g: German KUKA manipulator, Han's laser machine, automatic processing center, automatic load-bearing feeder, 360-degree manipulator automatic electric welding machine, etc.), ANYE is the only manufacturer of dental unit in the world that specializes in automation. The most stable quality products and the most suitable prices help dealers win the competitive edge which enables ANYE to have great sales in more than 70 countries .

ANYE is striving to build an exceptional brand recognized by the home and abroad dental industry. Professional technology, dedicated production service will always be ANYE's sincere and permanent commitment.

Sincerely hope to establish friendly business contacts and cooperative relations with friends in the global dental community.

COMPANY CERTIFICATE

ANYE Medical has obtained over 20 design patents, utility model invention patents, and more than 50 registered trademarks.

Enable every consumer to enjoy the benefits of using ANYE Medical with peace of mind and health.

GERMAN **KUKA** ROBOTIC ARM

Create a global chair frame installation "data simulation production system" workstation with an accuracy error of $\pm 0.08\text{mm}$,

Real time data, efficient production, and professional customization of dental chairs for global customers.

Years of factory production experience

Deeply cultivated in the industry for many years, focusing on creating high-quality products
Integrating production and sales, advanced production equipment, and a comprehensive quality inspection process
